

Help your donation go through the first time

A quick payment checklist for LCIF India donors

Most preventable issues

Bank limits, account eligibility, expired mandates, incorrect UPI IDs and incomplete bank redirects.

1 Before you start

- Keep your PAN/KYC, email and address details ready.
- Check that funds and bank or UPI limits cover the donation.
- Use a stable connection and an updated payment app.

2 UPI and UPI AutoPay

- Enter the UPI ID carefully and confirm the correct bank account.
- Approve the collect request or mandate before it expires.
- If the app does not respond, reopen it or try another supported UPI app.

3 eNACH authorization

- Use an account that permits eNACH or recurring debits.
- Enter account and debit-card details exactly as held by the bank.
- Keep the bank page open until you return to the LCIF India confirmation page.

4 If payment does not complete

- Read the message and correct any limit, UPI ID or account issue.
- Wait briefly, then retry once. Avoid multiple rapid attempts.
- Technical error? Take a screenshot and email LCIF India: lcifindia@lionsclubs.org.

Donate safely

Use only the official LCIF India donation page.

lcifindia.org/donate

- Never share your OTP, UPI PIN or card PIN with anyone.
- KYC is required for LCIF India donations. Indian citizens residing in India may donate on the India site; other donors should use the LCIF global site.
